

## Small Group Brainstorming Session

### Instructions

- 0:00 Sit at a table with people different from your area of expertise and briefly introduce yourself and your background to the group.
- 0:05 Silently write down all the answers you can think of for the question listed below. Write brief phrases, e.g., 3 – 6 words for each of the answers and write them under each question.
- 0:10 Go round-robin around the table asking each person to give one answer at a time. As you do hand your Post-It card to the facilitator to post on the easel for the group to see. Do not explain or defend your idea at this time. If someone else has already given the same answer as yours, do not repeat it. The facilitator will post your words on the easel. List as many answers as you can in the time available, getting all the answers on everyone's set of notes.
- 0:40 The facilitator will ask the group if any criteria need explanation. The person who provided the criterion can explain or clarify what they meant. The group can suggest ways to group criteria around common themes.
- 0:50 Reconvene to share your answers with the other groups.

### The question:

What criteria indicate the acceptability of a remedy for the Chequamegon Bay area community?

Note: Do not duplicate the other eight EPA criteria.
